CLICK 2 CALL
EDGE | USER GUIDE

Divisions of ZP Better Together, LLC

CALLING SOMEONE?

WRITING THEIR NUMBER DOWN?

NO NEED WITH ZP'S CLICK 2 CALL FEATURE!

JUST CLICK AND CALL!

This is a new feature that works on Z5 and P3 desktop on 4 major browsers — Google Chrome, Microsoft Edge, Apple Safari and Mozilla Firefox!

Before you use it, you need to do some downloading and installing. This user guide will help you do that. After installation, you can click the world away to make calls!
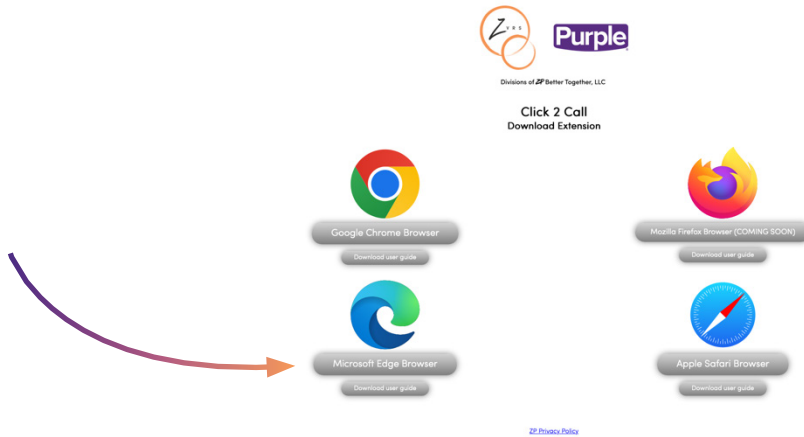

This user's guide is for **Edge** browsers.
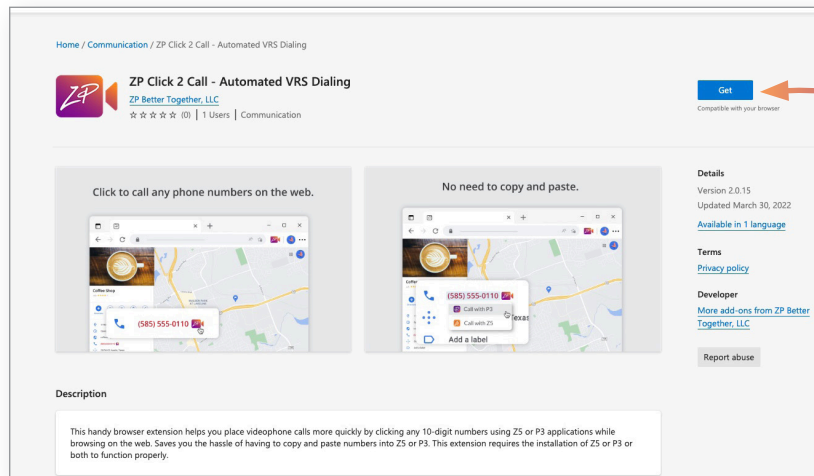

Go to this webpage: https://zpvrs.com/c2c

Then click this button which will take you to https://zpvrs.com/c2c/download
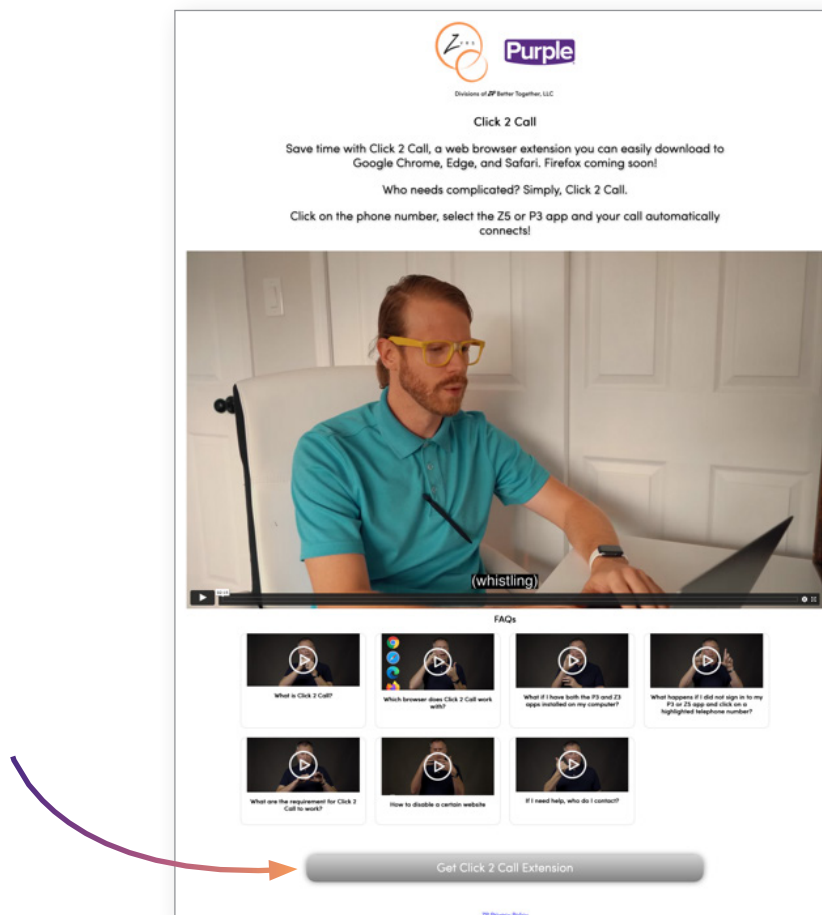

Click this button to download the extension for Edge.

Click this button to get the extension.

Click this button to add the extension (enable it.)
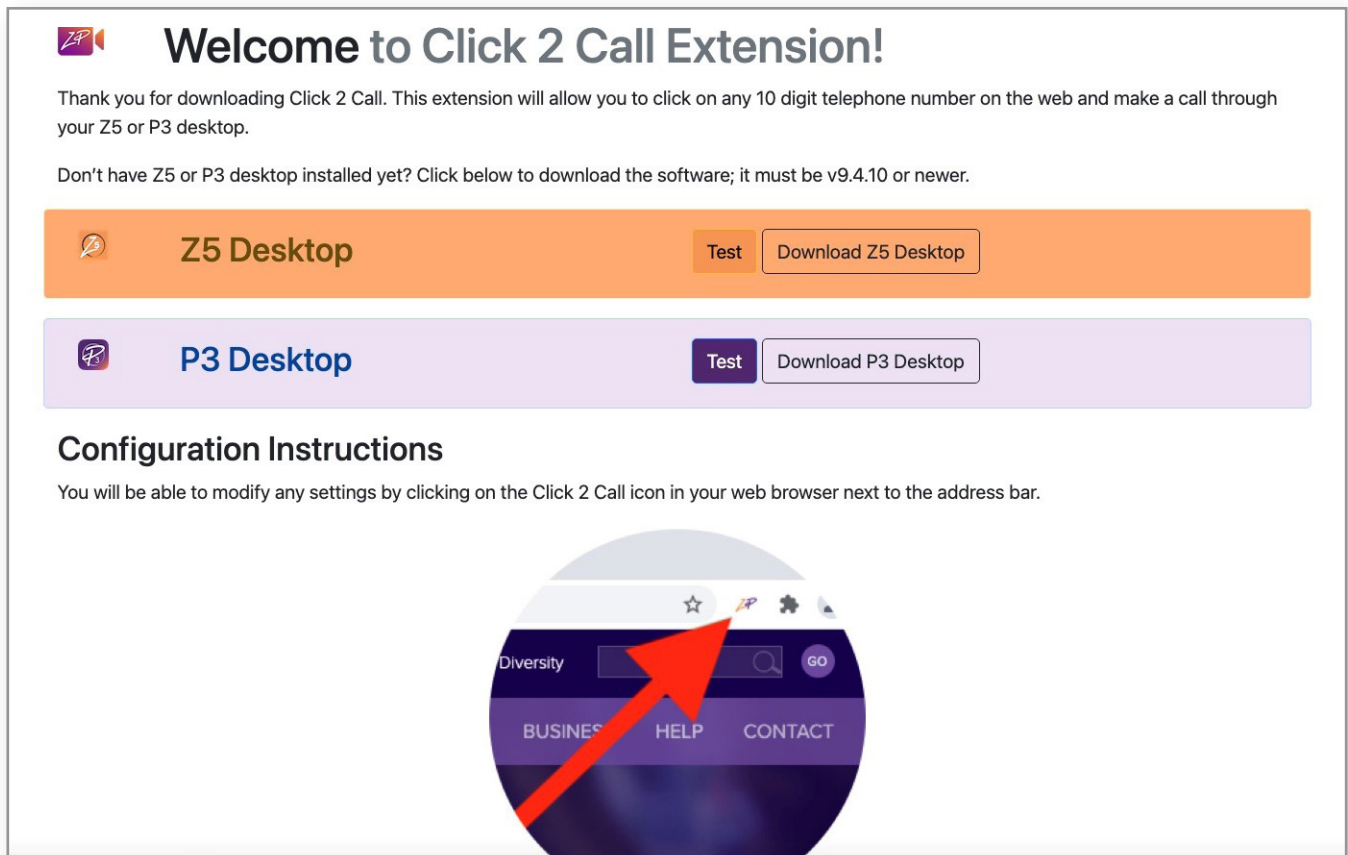

FOR **P3 DESKTOP**

Note: you must have at least v9.4.10 of P3 Desktop installed. If you haven't installed P3 Desktop, please **download** the app and register.

If you have already installed and registered your P3 desktop, start it, then click the "**Test**" button to be sure Click2Call works

FOR **Z5 DESKTOP**

Note: you must have at least v9.4.10 of Z5 Desktop installed. If you haven't installed Z5 Desktop, please **download** the app and register.

If you have already installed and registered your Z5 Desktop, start it, then click the "**Test**" button to be sure Click 2 Call works.

When you have verified Click 2 Call works, you do not have to do anything from now on. It's automatically connected to P3 or Z5 Desktop.

Anytime you see a phone number on your screen that you want to call, you will see a small icon where you need to click to make a call. You do not need to type the phone number in your P3 or Z5 Desktop. When you click it, it will make a call using your P3 or Z5 Desktop app.

202-789-7000
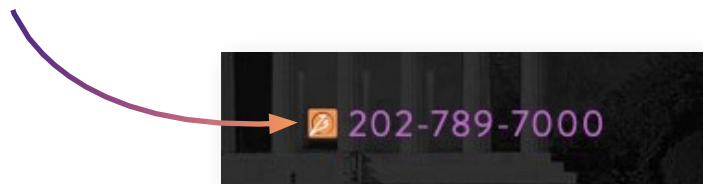

To make a call, just Click 2 Call!
